Hi Mary Beth – Attached are the waste profiles for the non-hazardous IDW generated at Gorge Dam. I have also attached the IDW analytical data for you to review.

After you review the documents, please let me know if you have any questions or requested changes. If the documents are complete to your satisfaction, please sign and return to me and we'll proceed with scheduling the pickup of the IDW. We will arrange the pickup at the same time we schedule the April groundwater elevation measurement event.

Cheers!

Bill
